About Me

Founder and full stack software developer with hands-on experience building real-world web applications and platforms. Founder of InternAI and Limpio, with strong exposure to hackathons, product building, and technical pitching. Skilled in HTML, React, CSS, JavaScript, Node.js, and MongoDB, with a focus on solving practical problems through technology. Certified in Generative AI, startup innovation, and software engineering through Microsoft, Google, and industry programs. Actively seeking opportunities to build, learn, and contribute in fast-paced tech environments.

WORK EXPERIENCE

2025 – present

Founder & Full Stack Developer

InternAI – Smart Internship Finder

- Built a full-stack web platform used by students to discover internships and streamline applications.
- Designed responsive UI using HTML, CSS, and JavaScript
- Developed backend using Node.js, Express, and MongoDB
- Worked on automation features like auto-apply and resume generation

Tech: N8n workflow, React.js, html, javascript, node.js, express

Full Stack Developer (Project-Based)

Limpio – E-commerce Platform

- Designed and developed an end-to-end e-commerce application
- Implemented product listing, authentication, and order flow

Tech: React, JavaScript, Node.js, MongoDB
